

# HABIB AND PPG INDUSTRY

# CAREER DEVELOPMENT

## I) CAREER TALK BY HABIB

- Habib was an alumni of Universiti Teknologi Malaysia
- He is the co-founder of getmehired.io
- He was frequently involved in giving career talks in UTM and have a good connections with his lectures from Faculty of Computing

## CONTENTS DISCUSSED

- How to prepare a good CV and resume for job hunting purposes
- Four common mistakes in job hunting
- Advise on how to sell ourselves in the market of industry to attract a lot of companies
- Talk about his life experiences to motivate students to not stop exploring things that they passionate about

## REFLECTIONS

- I have learned that we need to develop our softskills to be displayed in our resume and cv as it is the most crucial part that all industries will be looking before hire an employee into their company
- Not to mention that we also have to prepare our portfolio and record what we've learned from our early first year until the final year of our degree so that we can build a good portfolio to attract the recruiters from various company

## 2) CAREER TALK BY PPG

- PPG (Pittsburgh Plate Glass) company was a partner organisation with UTM
- Commonly known as a specialist in coating manufacturer and provides the coating solutions for almost all of the industries needs around the world
- A lot of graduates from UTM perform their internship in this company

## CONTENTS DISCUSSED

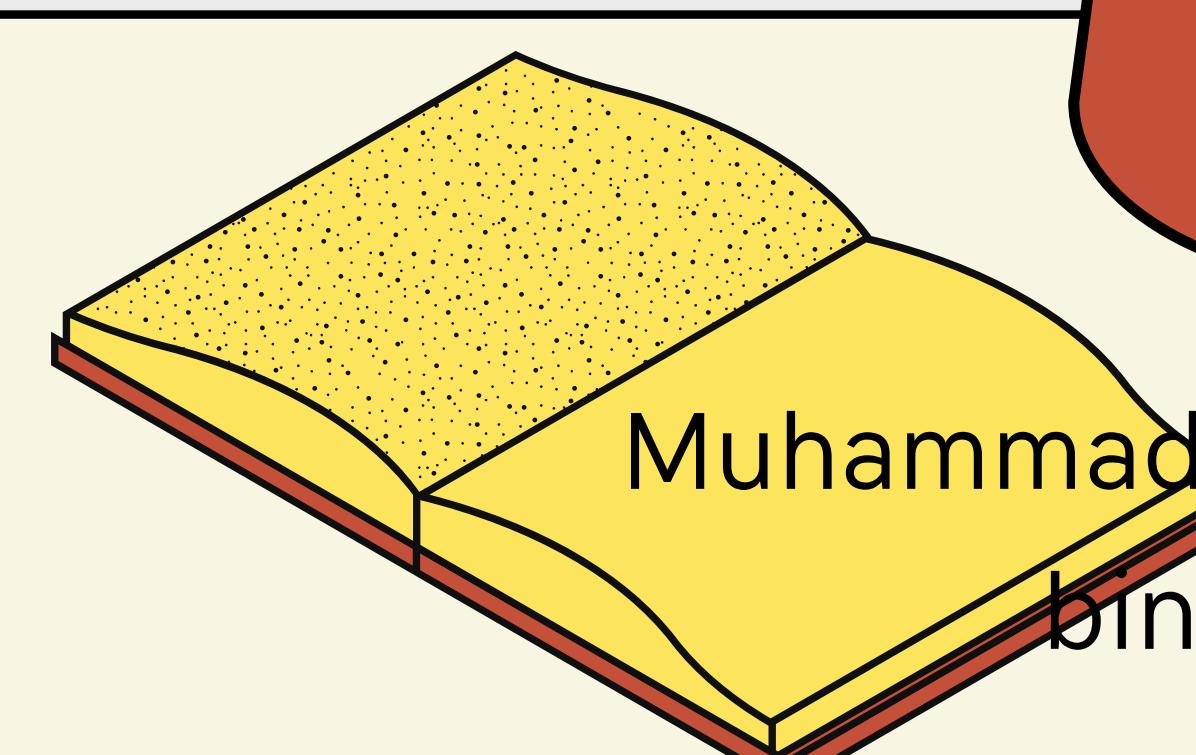

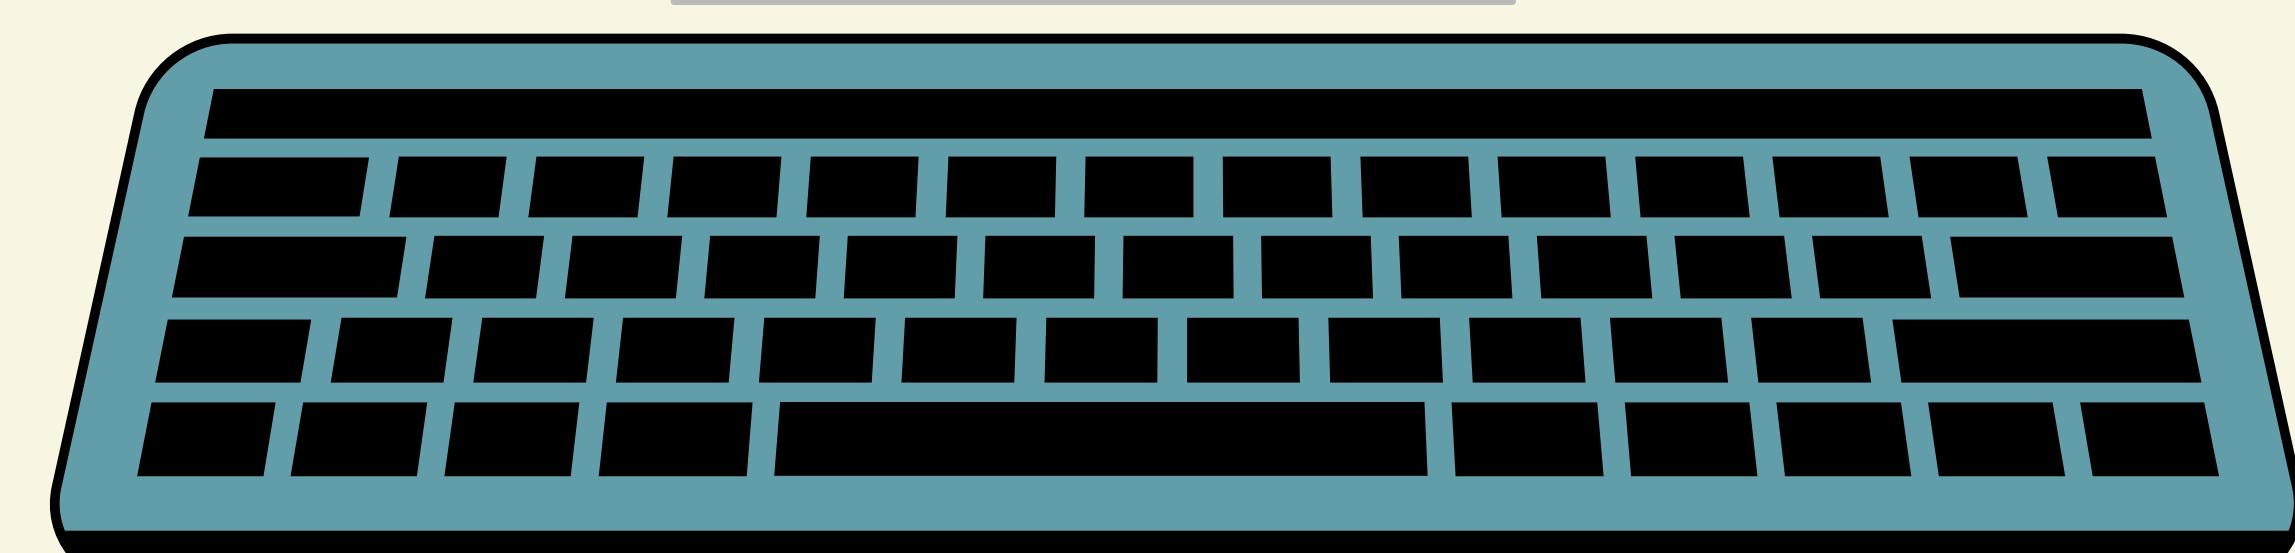

- The overview about what PPG company is
- Advices from the alumni of UTM which is Zamarul and Saharulnizam who were an employee from this company
- 5 best things in PPG as an employee
- Degree journey experiences from the alumni

## REFLECTIONS

- What I have learned that we must mastered all of the fundamental knowledges in our courses especially our programming skills before entering into the industry
- We must be prepared mentally and physically to handle the tasks or projects that were assigned to us

## SUMMARY

In summary, the approach made by the university to let our students have many engagements with the industry is a great way to prepared and prepped them to be a competent employee and will potentially increase their employability when they graduate soon in their final year in degree.
